

## Our Team

The Cure Stat Rx team is made up of compassionate experts, passionate about making a difference through medicine. We refresh our training often, solicit routine monitoring, and test ourselves for competency and technique. Our processes are held to the same high standards, as we continuously fine-tune our operating procedures to optimize quality, service, and performance.

## Our Credentials

We've got all the right licenses. Licensed by the State Board of Pharmacy, our facility is certified for USP 797 and USP 800 sterile compounding by a third-party agency, and our compounding equipment is calibrated in compliance with standard compounding protocols. All our supplies come from licensed and reputed distributors.

## Take Your Prescribing Potential to the Next Level

# A HEALTHY ANIMAL IS A HAPPY ANIMAL

## CUSTOM COMPOUNDS MADE ESPECIALLY FOR PETS AND LIVESTOCK

Your patients are pets and livestock with individualized needs. For the cat that hisses at a hand-fed pill, the horse that heaves when you approach with a needle, and the bird with a rare skin condition, there is Cure Stat Rx veterinary compounding.

At Cure Stat Rx, we know animals deserve a special level of care and compassion to ensure their therapeutic needs are met. That's why we partner with veterinarians across the country to simplify dosing with the art and science of compounding. Whether the commercially available dosage needs diluting or the chemical flavor fuels a frenzy, our incredibly capable pharmacists have a one-of-a-kind solution to make the medicine go down easier.

## Formulated for the Furry, Scaly, and Slimy

As a veterinarian, your most impatient patients may need a personalized prescription medication. That's where we come in.

### Dosage Difficulties

When commercially available medicines don't cut it, we'll customize another dosage form that's precisely right for the animal's unique size and condition, including [transdermal gels](#), [suppositories](#), and [flavored suspensions](#).

### Flavored Medicine

Administering medicine is easier for vets and pet owners when the animal loves the taste. Formulated with the flavor of fish, beef, chicken, bacon, turkey, liver, or fruit, medication becomes a delicious treat.

### Unavailable Medication

If a manufacturer discontinues a medication the animal still needs, we'll recreate it in a personalized strength, dosage form, and flavor.

## Why Compounding?

Say an animal's medicine is discontinued or the commercial formulation triggers an allergy. Cure Stat Rx compounds offer a customized dosage for optimal care with fewer side effects. We partner with caring veterinarians like you to treat more animal patients compassionately and effectively. The result is a thriving therapeutic outcome.

## About Cure Stat Rx

Cure Stat Rx was founded with a mission—to expand and pioneer treatments for rare and chronic diseases. This important pursuit has led to our partnerships with a number of health providers and manufacturers who trust us as their specialized pharmacy of choice. We are skilled experts who can help you deliver the right care to your patients, with customized compounds and specialty medications.
