CURE STAT RX ACHIEVES PCAB ACCREDITATION

SAN DIEGO, CALIFORNIA, Cure Stat Rx proudly announces its achievement of PCAB Accreditation, a service of ACHC, for the services of sterile and non-sterile compounding. The accreditation is awarded in recognition of the pharmacy's commitment to meeting and/or exceeding national quality standards.

Accreditation is a process through which healthcare organizations demonstrate compliance with national standards. PCAB Accreditation reflects an organization's dedication and commitment to meeting standards that facilitate a higher level of performance and patient care.

"Cure Stat Rx is committed to delivering the highest quality compounded medications," said the owner and head pharmacist Ramesh Chigurupati "By achieving PCAB Accreditation, our customers can be assured that our organization follows industry best practices and is in compliance with the most stringent national standards."

Compounding is an integral part of the practice of pharmacy, and the demand for these customized medications increases every year. Compounded medications are prescribed by physicians, veterinarians, and other legally authorized healthcare providers and prepared for an individual patient by a specially trained Pharmacist.

Established in 2007, PCAB was founded by eight of the nation's leading pharmacy organizations to create voluntary quality accreditation designation for the compounding industry. The organization promotes, develops, and maintains principles, policies, and standards for improving the quality of pharmacy compounding nationwide. In 2014, PCAB accreditation became a service of Accreditation Commission for Health Care (ACHC), whereby ACHC administers

the PCAB Accreditation program. For more information about PCAB Accreditation, visit www.achc.org/program/pharmacy.

Cure Stat Rx was founded with a mission—to expand and pioneer treatments for rare and chronic diseases. This important pursuit has led to our partnerships with many health providers, insurance carriers, and manufacturers who trust us as their specialized pharmacy of choice.

The Cure Stat Rx team is made up of compassionate experts, passionate about making a difference through medicine. We refresh our training often, solicit routine monitoring, and test ourselves for competency and technique. We are honored to have received PCAB accreditation as it validates our commitment towards excellence.
