

VETERINARY COMPOUNDING

With Nationwide Delivery for Pets & Livestock

CureStatRx.com

FOR THE PILL-SPITTERS, PAW-PUSHERS, AND PICKIEST OF EATERS

For the cat that hisses at a hand-fed pill, the horse that heaves when you approach with a needle, and the bird with a rare skin condition, there is Cure Stat Rx veterinary compounding.

At Cure Stat Rx, we know animals deserve a special level of care and compassion to ensure their therapeutic needs are met. That's why we partner with veterinarians across the country to simplify dosing with the art and science of compounding. Whether the commercially available dosage needs diluting or the chemical flavor fuels a frenzy, our incredibly capable pharmacists have a one-of-a-kind solution to make the medicine go down easier.

FORMULATED FOR THE FURRY, SCALY, SLIMY

Your most challenging patients need more than standard care. Cure Stat Rx delivers personalized, compounded medications tailored specifically to your clinical requirements.

Dosage Difficulties

We provide tailored alternatives when off-the-shelf medications don't meet your patient's specific needs. We customize the delivery and dosage to match their size and condition, offering options including:

- transdermal gels
- suppositories
- and flavored suspensions.

Flavored Medicine

Administering medicine is easier for vets and pet owners when the animal loves the taste.

Formulated with the flavor of fish, beef, chicken, bacon, turkey, liver, or fruit, medication becomes a delicious treat.

Unavailable Medication

If a manufacturer discontinues a medication the animal still needs, we'll recreate it in a personalized strength, dosage form, and flavor.

Why Compounding?

Cure Stat Rx compounds offer a customized dosage for optimal care with fewer side effects. We partner with caring veterinarians like you to treat more animal patients compassionately and effectively. The result is a thriving therapeutic outcome.

About Cure Stat Rx

Cure Stat Rx was founded with a mission to expand and pioneer treatments for rare and chronic diseases. This important pursuit has led to our partnerships with health providers and manufacturers who trust us as their specialized pharmacy of choice. We are skilled experts who can help you deliver the right care to your patients with customized compounds and specialty medications.

SAFETY COMES FIRST

The Cure Stat Rx team of experts is dedicated to making a difference through medicine. We frequently refresh our training, solicit routine monitoring, and test ourselves for technique and competency. Our processes are maintained at best-in-class industry standards, as we continuously fine-tune our operating procedures to optimize quality, performance and service.

We are licensed by the State Board of Pharmacy and our 503A facility is certified for sterile compounding standard USP 797 and standard USP 800 for the safe handling of hazardous drugs. The pharmacy compounding and lab equipment is routinely calibrated and maintained for compliance with standard industry protocols. Additionally, all pharmaceuticals and other medical supplies are sourced from licensed and reputable wholesale distributors.

No matter what your patients may require, Cure Stat Rx will always delivery high-quality and timely treatments. When necessary, additional testing is available for potency, sterility and endotoxins.
